Further Short Comments on I & W Draft

- 1. I have very little to add in the way of further comments on the excellent 23 May draft. I still like the basic approach of this draft.
- 2. I sent up short comments on the draft in my memo of 24 May. (I also sent up memos on 25 and 26 May, covering the discussion at the two meetings held last week.) In addition to the comments in my memo of 24 May, I have only two more small points:
- a. The reference to the old Watch Committee sort of comes out of the blue, in #26, on pages 14-15. Maybe there should be a very short reference to the old mechanism.
- b. I am still not certain how precise we should be, but we probably ought to pin down more precisely just what the broadening of the SWS charter should entail. (pp 25 ff)
